

**Campaign Update #45:
Insulation. Drywall. Windows.
And the impressive front entrance work continues!**

We are grateful for the gift of the recent sunshine and beautiful weather as construction continues on the new home of the Saints!

You can see the progress on the exterior buildings when you drive by the new campus. But take a look inside with the photos below to see what is happening with the interior spaces. It's quite impressive how far we've come in a short amount of time!

The new SMCHS campus is moving along at an incredible pace. Our school is on schedule to open next fall. We just need YOU - our enrolled families, staff, alumni and friends, to make your pledge now.

This project will require a sacrifice and commitment from each of us. We have less than \$5 million to raise in our campaign. Please pray about how you can be involved and what you can give to build our future.

IT'S TIME TO COMPLETE THE PROMISE.

The photo on the left shows the current status of the front entrance of the Academic Center. The architectural rendering on the right shows what the entrance will likely look like when completed. We are thrilled with the progress of this grand entrance to our new school!

The science classrooms are already insulated and drywall is going up on the walls.

Work continues on the new Saints top-loading gym. This photo shows the entrances that walk down into the bleachers.

Inside the Academic Center, the walls continue to take shape on both levels. The stairs (and unique student study areas in the landings) are now visible.

This photo shows the new windows that have been installed on the north side of the Academic Center.

This is the recently completed parking lot on the east side of the campus.
