

Campaign Update #41: SMCHS Construction Photos & Video Update

View the latest construction photos of the new SMCHS! Feel free to drive by on 57th Street to get a peek at the progress, but please note that only authorized vehicles are allowed to drive into Saints Drive to access our construction zone. Please understand that only authorized employees and contractors are allowed on this site, while wearing approved hard hats.

We just released a new video of the SMCHS construction site, narrated by John Richter & Toby Schweitzer.

[CLICK HERE to watch the video tour on the Keep the Promise website.](#)
[CLICK HERE to watch the video on the Light of Christ Facebook page.](#)

We look forward to sharing more photos and video tours as the construction continues! Please pray and discern about your pledge to this campaign to build the future of our schools. **[CLICK HERE to donate online now.](#)**

Panoramic Construction View - May 2018

Looking to the west, this is the view of the new SMCHS Academic Center. The first pieces of structural steel were placed in this area of the campus. This is the courtyard view of the future main entrance.

This is a view of the Academic Center from high in the air.

This photo shows the main entrance of the Academic Center and the footings of the Fine Arts Center at the top of the photo.

Looking up and toward the east, this is the facilities/utilities area on the left and the kitchen area on the right. These are the first pre-cast walls that were placed on the campus.

In the Athletic Center area, the top-loading gym area is visible on the left side of this photo, and the facilities/utilities area is on the right.

This photo is facing west, looking at where the locker rooms and gyms will be located. The steel structure in the background left side is the Academic Center.

This photo shows the footings of the Fine Arts Center.
