

**Campaign Update #43:
Photos and Drone Video of New SMCHS
& St. Mary's Grade School Construction Update**

The Light of Christ was shining on the new home of the Saints on a recent August evening! This is the current view of the main entrance to the Academic Center at the new SMCHS campus.

The layout of the new campus is evident from 57th Street in north Bismarck. You'll see the Academic Center in the middle of this photo with the Athletic Center on the right. The Our Lady of Victory Chapel and Fine Arts Center will be located on the left side of the Academic Center.

We just released a drone video taken during the construction progress at the new home of the Saints! [CLICK HERE](#) to view this incredible drone video taken several weeks ago and see the progress for yourself!

If you drive by St. Mary's Grade School on 9th Street, you'll definitely see some changes to the grade school campus! Here's a few quick photos of the work being done there to build the addition to the elementary school.

Please pray and discern about your pledge for this campaign to build the future of our schools.
